

GEARED TROLLEY
手拉小车

TG

Features:

The manual trolley is heavy-duty side frames and fully machined wheel tread for a superior performance over a long life. Trolleys are equipped with Lifetime lubricated and precision ball bearings. Heavy rolled steel side frames extend beyond the wheels to provide these trolleys with superior strength, rigidity and added protection for the trackwheels. Units operate on universal wheel treads for use on flat or tapered beam flanges. Trolley wheels are fully machined from alloy cast iron and hardened for high strength and long life.
